PROFILE

I am a motivated and detail-oriented aspiring Software Developer with a strong foundation in C# and Python programming, software engineering principles, and application development. Currently completing a one year Advanced Diploma in ICT, I have gained hands-on experience through academic projects focused on software development, system design, and platform-based solutions. Proficient in Microsoft Azure, acquired through practical training at Africa Learn College, I am skilled in building RESTful APIs, managing relational databases, and implementing scalable cloud-enabled applications. I thrive in collaborative environments, consistently applying a problem-solving approach and a dedication to learning. Eager to contribute to innovative development teams while growing my skills in real-world software engineering environments.

WORK EXPERIENCE
